

AWAR was founded in 2015 under the principles of Equity and Inclusion. From our very beginning we set out a mission to **build awareness and develop actionable strategies to promote the development and advancement of women leaders in the aviation industry.**

To that end, we are proud to support the United Nation's Sustainable Development Goals #5 Gender Equality and #10 Reduced Inequalities.

These companies are already reporting on their work on the UN ESG goals in 2022. Their allegiance to supporting women and equality, including through their commitment to AWAR, is valuable evidence of our work.
